

BETA FILE

THE ACCOMMODATING SYSTEM

The Accommodating System

Clear Choice

With its smooth, clean lines, concealed fixings, security features and easy adjustability BETA FILE is ideally suited to the storage of books, valuable documents, and files. It provides an obstruction-free and practical storage solution for offices, libraries, local authorities, and many commercial and industrial installations where attractive appearance and protection of items is important.

Clear Access

It's a system designed to provide clear and clean access for users. The wide range of uprights and shelves feature:

- Double skin uprights with slots, ensuring smooth, clean lines and simple adjustment of shelf levels
- Shelves with safe edges to front and rear flanges
- Concealed shelf clips that provide clear access with no obstructions, ensuring that books and manuscripts can be removed and returned without damage
- A choice of back cladding or open bracing for increased versatility
- Simple to install

BETA FILE is an adaptable, smart & cost-effective storage system.

Clearly the Right Choice

Clear Solution

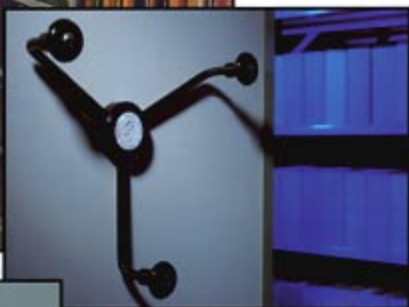

To meet your specific needs a wide range of BETA FILE accessories ensures you can store everything with confidence: ideal for valuable books and manuscripts; perfect for lateral and box files; and excellent for magnetic tapes or cartridges. BETA FILE looks after everything neatly, reliably and safely.

It can also be used as a mobile system saving you even more space and increasing your storage capacity.

A range of decorative end and back-panels are available to ensure your storage system blends in with existing decor.

Clear Winner

Whatever your shelving requirements, large or small, static or mobile, office or industrial, library or museum, hospital or local authority, **BETA FILE is recommended for a high quality, cost-controlled solution.**
