

DELTA FILE

THE ACCOMMODATING SYSTEM

The Accommodating System

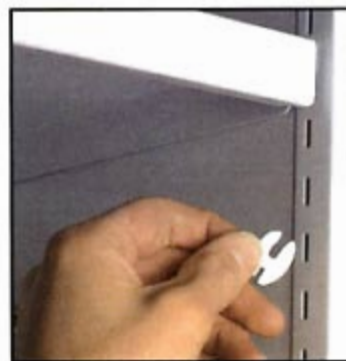

The Right Choice

The cost-effective shelving system combining strength with smart looks and which is simple and economical to install, DELTA FILE is ideal for most commercial and light industrial environments. It is also first choice for a wide variety of public organisations including libraries, museums, local authorities and hospitals. A system that can expand as your needs grow if space is at a premium and budgets are strict, DELTA FILE always makes excellent sense.

The Right Product

Designed from the user's point of view a full range of uprights and shelves feature:

- Slotted uprights for fast adjustment of shelves
- Shelves with safe edges to front and rear flanges
- Recessed shelf clips ensure concealed fixings for clear access
- A choice of back cladding or open bracing for increased versatility
- Simple to install

There's no better way to provide an adaptable cost-effective storage system.

The Cost Effective Answer

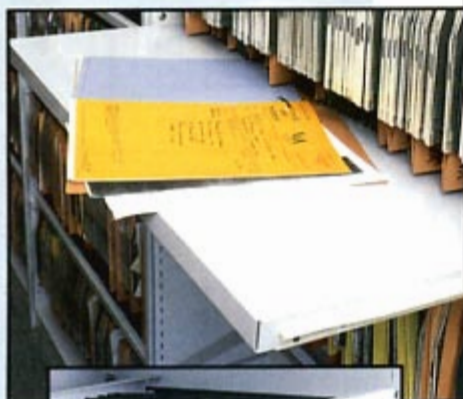

The Right Solution

To meet your specific needs a wide range of accessories ensures you can store everything from lateral and box files to computer magnetic tapes or cartridges, neatly, reliably and safely.

DELTA FILE can also be used as a mobile system saving even more space and increasing your storage capacity. It also looks good. Decorative end and back-panels are available to blend in with your office decor.

The Right Answer

Whatever your shelving requirements, large or small, static or mobile, office or industrial, library or museum, hospital or local authority - your best route is to specify DELTA FILE for a totally cost-effective solution.
