Gallery Gives you the Complete Solution

Secure and cost controlled

The safe keeping of artworks while in storage or on display is the number one priority for every art gallery, museum and historic collection.

Gallery Collection provides a complete - and completely reliable - solution, which is also remarkably space efficient, and low-cost to install and maintain.

It's a practical, safe, affordable system. What's more it offers the advantages of extra visibility and accessibility to art lovers, scholars and collection custodians.

- Twin benefits of maximised storage area together with flexible display options
- Lateral or pull-out display features allows you to design a system precisely suited to your space and usage requirements.
- Strong simple construction offers a durable, attractive and easily managed storage and display facility.
- Protects precious and important artworks and can be easily added to and extended as required, - **Cost effectively**

Many important collections throughout the UK have specified purpose-designed installations from the **Gallery Collection**.

Designed for all your Needs

The optimum solution for your requirements

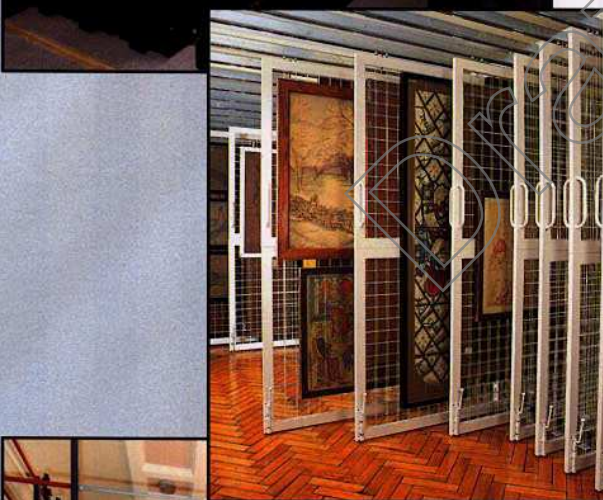

Steel racks are suspended from overhead roller tracks and guided at floor level to provide full access to all materials. Racks are clad on both sides with heavy duty mesh on which paintings and artifacts may be suspended in safety avoiding contact with each other on retrieval.

Contact us today

To support this range of specialist equipment we offer a complete design to installation service to give you a custom built solution to your requirements
